

K-LOVE is a listener-supported station for Christian music and comments, of which, sad to say, there are too few. Our world today needs MORE stations like this on the airwaves, rather than the trash that our children are exposed to on a daily basis. This station enriches our lives with the truth of the gospel, and to potentially lose this avenue for many people to hear the Word would be very troubling. There have been many, many cases where a person has been able to receive counselling by calling in to the station and had positive, life-changing results. K-LOVE provides daily blessings for the community in the clean, clear messages of the songs and interaction of the broadcasters. To remove this station would be a disservice to my community and the state of North Carolina.
